EVALUATION METHODS

I have been coming to these meetings since the day they began and have found each one has helped me to get rid of my "Bad feelings of being alone" but today has been the liveliest and a laugh a minute. I find that more of us have joined together and I have, I hope, made a friend at last or more friends. It has saved my sanity. Thank you to you all- Participant in a Heritage Doncaster B:Friend session.

“It is very good. It all makes for a great afternoon. Stimulates the brain whilst having fun.”
