## Annual Data Survey of Museums in Yorkshire

Museum Development Yorkshire is conducting its Annual Data Survey of museums in Yorkshire. The purpose of the survey is to gather evidence to help demonstrate and prove the social and economic importance of museums both locally and regionally to funders and stakeholders.

The survey asks museums and heritage organisations across the region to provide core statistical data about their visitors, educational engagement, volunteers, staff and financial operations for the period 1 April 2018 – 31 March 2019. Last year just under 60% of all Accredited museums in England responded to the survey.

### Key findings from the participating museums in England 2017-18:

- Generated over 155 Million in earned income
- 25.3 Million of income from retail operations
- Volunteer time was worth £21.4 million to museums across the regions

### What's in it for museums?

- Advocacy – evidence to make the case for your social and economic value in order to sustain investment
- Performance benchmarking – consistent data to compare your museum's operational context
- Informing strategy – knowing your operational context will support your business planning
- Fundraising – the data can be used as evidence to support funding applications or to express your value with the public

### How to complete the survey?

- The survey can be completed online here: [www.smartsurvey.co.uk/s/CAFER](http://www.smartsurvey.co.uk/s/CAFER)
- You can save your answers and return to the survey at any time
- All figures should be for the financial period 1 April 2018 to 31 March 2019
- Please complete as many questions as possible. We know that sometimes providing an exact figure can be hard so if you do not have final data, please provide your best estimate
- Some questions are marked mandatory and require a response. If a question does not apply to your museum, or an answer to a particular question is not known then please specify this by adding N/A in the answer box
- If the response to a particular question is 0 then please specify this rather than leaving it blank

attached to this email

- If you are a museum service or trust that runs multiple museum sites you should have been contacted separately regarding completing this survey. If not please email [museum.development@bristol.gov.uk](mailto:museum.development@bristol.gov.uk)
- Please complete and return the survey by **Tuesday 20 August**
- National Portfolio Organisations (NPO) may choose to provide their NPO survey data (PDF download from Grantium, or excel documents with relevant data) for inputting. Please email [museum.development@bristol.gov.uk](mailto:museum.development@bristol.gov.uk) for further information. Questions which align with the NPO survey are also identified by the relevant NPO question number in case you prefer to input this data.

#### Questions about the survey

The survey is being carried out by the South West Museum Development team on behalf of Museum Development Yorkshire. If you have any questions about completing the survey you can contact [museum.development@bristol.gov.uk](mailto:museum.development@bristol.gov.uk)  
Thank you for taking the time to complete this form and we look forward to sharing the results with you.

## Small Development Grant Scheme 2018-22

Does your museum have a project which just needs that small amount of money to:

- turn a great idea into reality to move the museum forward and better care for its collections
- provide better experiences for your visitors and users
- develop new fundraising ideas
- attend training courses
- implement recommendations made by MDY or
- address areas for improvement for Accreditation?

If so, why not submit an application for a Museum Development Yorkshire small grant?

The Museum Development Yorkshire Small Grants Fund can provide funding for a variety of projects in your museum. Our Small Development Grant Scheme assists museums to implement advice, test new ways of working and make good things happen. It also supports personnel to attend training courses and conferences.

The amount awarded is up to £3,000 per project with a sliding scale of match funding required. The fund for this financial year is now live and available on an open application basis, with assessments made on a monthly basis. All monies must be spent and claimed by the end of the financial year.

**For the guidance notes and links to the online application form, visit: [bit.ly/MDY18SGApp](https://bit.ly/MDY18SGApp).**

## From the Region

### **Accessible Volunteering at Barnsley Museums' Worsbrough Mill**

We recently celebrated the culmination of a Youth Social Action project at Worsbrough, this fantastic project has enabled a group of young people who have various Special Educational Needs and Disabilities (SEND) to volunteer and support their local heritage and environment through the creation of bird boxes, feeders and art interpretation for the site. It saw us strengthen our relationship with local charity, Qdos Creates and allowed us to work closely with SEND education providers who they were connected to.

This project also underlined the beginnings of our work around accessibility; it demonstrated that we could deliver volunteer opportunities that are accessible but also there was still work to be done to embed this into our day to day work.

We got some fantastic feedback from those involved about why they enjoyed volunteering and what they got from it including , 'it makes me feel happy and I make new friends' and 'it made me feel confident'.

We're excited to say further funding is being sort to continue this work and enable more young people with these needs to volunteer and remove the perceived barriers

## New Funding Schemes from Art Fund

### Conservation grants

Art Fund is always looking for new ways to support museums, and last year we began making grants to cover conservation – including work that allowed Artemisia Gentileschi's Self Portrait as Saint Catherine of Alexandria to recently tour the UK in her full glory before settling in at the National Gallery. Now we are pleased to open a dedicated scheme of conservation grants to help safeguard the future of more artworks in collections across the country.

### Small project grants

We want to help museums, galleries and other visual arts organisations realise adventurous projects across a range of activities to benefit their audiences. Today we launch our small project grants, which provide funds for museums to trial new ideas and take more creative risks, with grants of up to £10,000 available to back projects of all kinds.

### Headley Fellowships with Art Fund

Now in their second year, the Headley Fellowships with Art Fund free up time for curators to carry out research into their collections by providing funding for their posts to be backfilled. The scheme is part of our ongoing initiative to encourage the development of UK collections expertise and the sharing of specialist knowledge both with the public and across the sector.
